

# CAPT. WHEELER, FAMOUS RANGER, WILL JOIN UNITED STATES ARMY

(By Associated Press.)  
TOMBSTONE, ARIZ., April 11.—Two silver bars on his shoulder straps will add nothing to Harry Wheeler's title in Cochise country and Arizona for he has been known as Captain Wheeler since the days he rode the lonesome trail along the border as captain of the Arizona territorial ranger force.

At present Wheeler is sheriff of this county but is expected to resign to accept a commission as captain in the United States cavalry, a branch of the service in which he saw service as an enlisted man in the days when the Apaches and not Francisco Villa were making it necessary to keep a force of troops along the frontier. He was discharged from the cavalry because of injuries he received when his cavalry horse kicked him. He located in southern Arizona and soon joined the territorial rangers which were formed to protect the border from the raids of Indians and lawless elements on both sides of the international line.

As captain of these rangers Sheriff Wheeler established his reputation as a peace officer. He arrested many outlaws, tracked them to their hiding places in the mountains and fought many battles with bandits in the Huachuca, the Whetstones and the Chiricahua mountains. He was wounded several times in these en-

gagements and these wounds caused him to be rejected by medical officers when he applied for enlistment as a private soldier at the outbreak of the war.

One of Captain Wheeler's most famous feats was the killing of a man on the station platform at Benson, Ariz., after he had been shot and was on the ground. Wheeler went to the train to arrest the man who was wanted by the ranger captain on a criminal charge. As soon as the wanted man saw Wheeler he started firing and shot the ranger through the body. Raising himself from the platform on his elbow, Wheeler shot the man three times, killing him almost instantly.

Sheriff Wheeler's most recent experience was in rounding up and deporting 1200 miners from Bisbee on July 12, 1917. This deportation created a sensation throughout the country and was the cause of calling the attention of the east to the I. W. W. menace in the west and southwest. Sheriff Wheeler transferred his office temporarily to Bisbee where he organized the round-up of the men listed as undesirable by the committee in charge of the deportation. On the morning of July 12 the deputized citizens started rounding up the men on these lists. They were loaded into cattle cars and sent to Columbus, N. M., where they were held in

camp for several weeks.

But two men were killed during this round-up although it was expected that at least 100 would be killed during the day. Sheriff Wheeler said. An investigation was made of his part in the affair but no legal action was ever taken. After the deportation the sheriff established picket camps and had all of the roads entering Bisbee patrolled to prevent any of the undesirable returning. Those who did return were given twelve hours to leave camp and all complied with this order.

More recently Sheriff Wheeler led the man hunt after the Powers-Sisson gang of outlaws who killed the sheriff and two deputy sheriffs in Graham county and started for Mexico. "Wheeler rode the trails in the mountains night and day and finally located the trail which led to Mexico where the three outlaws were captured by United States cavalry troops.

Wheeler is a small man with a soft voice and a quick trigger finger. He was a Canadian and has made repeated efforts to enlist in the Canadian regiments going to France. Through his friends he succeeded in obtaining a commission as captain of cavalry and will join his command at Douglas, Ariz., which is near the scene of so many of his border adventures.

## PROPERTY NECESSARY FOR GERMAN VOTER

(By Associated Press.)  
AMSTERDAM, April 11.—A six-class voting franchise is proposed for Germany in the new Prussian franchise bill as amended by the Junker party. Every voter is to have one vote, and any voter may have additional votes under five special qualifications, age combined with number of children, property, income, established position as an employer, and education.

Under the first qualification, every voter who is over 30 years old and has not less than three legitimate children, gets one additional vote. The second qualification gives an additional vote to every elector who pays property tax. Thirdly, an additional vote is given to every voter whose income tax exceeds the average amount of income tax paid by the residents in the same parish, or who, alternatively, has an income exceeding \$750 a year. Fourthly, an additional vote goes to all employers of labor and all independent farmers or peasant farmers. Finally, an additional vote is given to all electors who have reached one of the upper classes of a secondary school.

## AIRPLANE FOR FOX HUNT

(By Associated Press.)  
LONDON, April 11.—An airplane recently joined in a fox hunt, according to Country Life. Its correspondent says: "While running we saw an airplane following us overhead about 100 feet up. The airman waved us the direction in which our fox had gone and when we checked we heard several shouts from aloft and were put right by our friend above, the hounds verifying his information."

"A little later he landed in a field, told the master where he had seen the fox, then rose and circled above us. But the fox beat us."

## WANT NEW CLOTHES

(By Associated Press.)  
AMSTERDAM, April 11.—Eleven hundred German towns and cities have applied for supplies of the new "state standard" garments for men and women. Half a million pairs of standard trousers are to be distributed during the next three months, and a proportionate number of other garments. Women's skirts will sell at \$4.50 to \$9, dresses at \$15 to \$21. Nobody who has an income of over \$20 a week will be permitted to buy state clothes.

## GOLD ZONE DIVIDE MINING CO. Assessment Notice No. 1

Location of principal place of business, Tonopah, Nevada. Location of mine and works, Gold Mountain, Esmeralda County, Nevada.

# ATHLETIC CONTESTS AT CAMP LEWIS

(By Associated Press.)  
CAMP LEWIS, Tacoma, Wash., April 11.—Every organization in the Ninety-first division, not kept out by quarantine regulations, was represented on the field yesterday afternoon in the military athletic tournament arranged by Captain T. G. Cook, camp athletic director, on the division athletic field. Teams from every unit struggled together in athletic competition which not only demonstrated their physical fitness, but showed the great value of athletics to the soldier when coordinated with his efforts in the trenches, on the parade ground and at drill.

Yesterday's event was far different

than the usual field day meet of college athletes. Instead of the shot put there was the hand grenade competition where men matched their skill in tossing hand grenades at an enemy trench, distance and accuracy deciding the winners.

Instead of the hundred-yard dash, there was the rescue race, in which two men team ran fifty yards to "wounded men," lifted them to their shoulders and returned with them to the starting point. Bayonet combat competition with wooden rifles, platoon and gloves, teams of ten men from each regiment, was seen instead of the javelin throw. Wall scaling contests replaced the pole vault events. The men ran in squads twenty-five yards to the ten-foot wall,

over it, and twenty-five feet beyond without losing their hats.

There was a relay litter race, in which teams of eight men participated, covering a distance of 200 yards. There was a competitive squad drill, running trench jump, with the contestants carrying rifles and jumping a six-foot trench; there was a huge competition and a 100-yard relay race in field shoes; a hand competition wound up the events.

Camp athletics are being rearranged to coordinating with the military training as far as practicable. The sports are taking on a new meaning and every man at camp is taking part in some sort of athletic work under competent instruction.

# EMBARGO on Tire Vexations

TO prevent tire troubles piling up until they threaten the service of your car, equip with Firestone Tires, Cord or Fabric. Both have special Firestone features which minimize tire troubles and lengthen mileage. In the Firestone Cord Tire pure gum

insulation reduces friction. Individual cords are imbedded in protecting rubber so that no two cords can touch to cause friction. The extra thick cushion layer does double duty. It distributes road blows over a larger area of carcass. It welds the tread to the carcass.

# Firestone Tires

Ask your dealer to show you this section. Have him point out the superiorities that produce Firestone comfort, Firestone safety, Firestone Most Miles per Dollar.

Actual size  
3 1/2 inches

Firestone Cord Tire improvements have shown the way for material advances in Firestone fabric construction. In the Firestone Fabric Tire you find more rubber between the fabric layers, added strength to cushion layer and tread, special reinforcement to strengthen the sidewall and unite it more firmly to the bead. Put an embargo on tire vexations. Begin by making your next tire a Firestone cord or fabric.
